Investing involves risk, including the possible loss of principal. International investments entail risks not ordinarily associated with U.S. investments including fluctuation in currency values, differences in accounting principles, or economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors, as well as increased volatility and lower trading volume. The Fund may invest in derivatives, which are often more volatile than other investments and may magnify the Fund's gains or losses. The Mondrian Investment Partners Limited Funds are distributed by SEI Investment Distribution Co. (SIDCO). SIDCO is not affiliated with the advisor, Mondrian Investment Partners Limited. MSCI Emerging Markets Index (Net) - A free float-adjusted market capitalization weighted index that is designed to measure equity market performance in the global emerging markets. This series approximates the minimum possible dividend reinvestment. The returns are calculated applying dividend withholding rates applicable to non-resident persons who do not benefit from double taxation treaties. Index returns are shown with net dividends reinvested. MSCI Emerging Markets Value Index captures large and mid cap securities exhibiting overall value style characteristics across 26 Emerging Markets (EM) countries. The value investment style characteristics for index construction are defined using three variables: book value to price, 12-month forward earnings to price and dividend yield.
