## Mondrian Investment Partners Limited

- Mondrian is **employee owned**; approximately half of employees are partners today
- Founded in 1990, with over **30 years** of stable, consistent leadership
- Highly experienced team of **57 investment professionals** in London
- Over **USD 60 billion** under management and advisement<sup>1</sup>
- Income-oriented **value discipline** across all products

## Mondrian's Approach to Global Green Bond

- USD 4.2 billion in Fixed Income; **USD 2.4 billion in Developed Markets Debt and USD 1.8 billion in Emerging Markets Debt**
- Targets bonds considered by Mondrian to be genuinely green, as per our **green analysis framework**
- Mondrian's **value approach** to global credit is **quantitatively driven**, extracting value across the credit cycle, by identifying the best value opportunities using **Relative Value Indicators**
- We invest in global bond markets that best compensate for inflation and sovereign credit risks measured by a market's **Prospective Real Yield**
- Currency allocation: **Purchasing Power Parity** approach used; supplemented by our sovereign credit analysis
- **Environmental, Social and Governance (ESG)** considerations are integral to our process

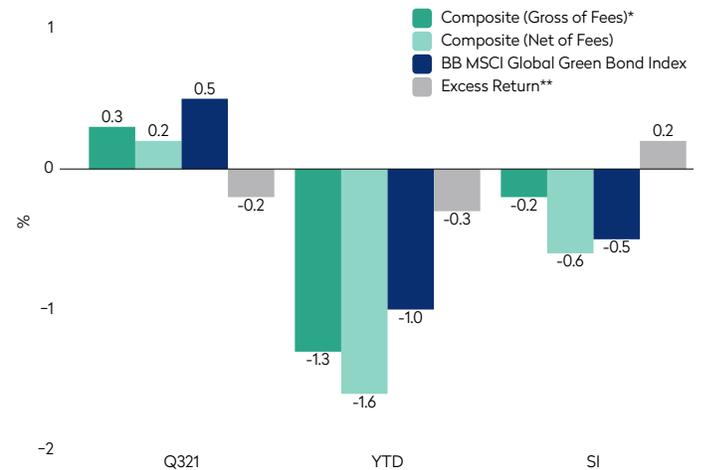

## Why Mondrian?

- **Integrated green analysis** – identifying truly green bonds
- Green **impact analysis** and issuer engagement
- **Strong track records** across fixed income strategies– we believe this is **repeatable** for the following reasons:
  - **Financially robust, employee-owned firm** – long-term continuity and stability
  - **Stable, well-resourced team** with expert knowledge of the asset class
  - **Disciplined process** that has been shown to work over

the long term across our fixed income strategies

- **Not reliant on “star managers”** with potentially unrepeatable calls
- **Nimble** – manageable AUM and focused team means we can continue to rapidly exploit opportunities
- **Comprehensive ESG integration** – sovereign and corporate investment process **awarded A+** in the 2020 PRI assessment<sup>1</sup>
- **Competitive management fees**

## Credit Rating Distribution

### Notes:

<sup>1,3,5</sup> Allocation in representative account. Absent client restrictions, allocations are consistent across all client portfolios with the same mandate type. Bond exposures are calculated in duration weighted terms.

Where bond exposure is shown, this represents the portfolio's exposure to bonds issued in that currency. Where currency exposure is shown, this represents the portfolio's exposure to bonds, cash and forward positions denominated in that currency.

<sup>2,4,6</sup> Active weight exposure (Mondrian weight minus index weight).

The pie chart below for the Mondrian representative account has been constructed using the index rating methodology.

## Important Notes and Disclosures

Mondrian claims compliance with the Global Investment Performance Standards (GIPS®). Mondrian is a value-oriented defensive manager seeking to achieve high real returns for its clients. All products utilize an income-oriented value discipline. Mondrian's methodology is applied consistently to markets and individual securities, both bonds and equities. The Global Green Bond Composite includes Euro based discretionary portfolios and share classes of Euro based portfolios, measured against Bloomberg MSCI Global Green Bond Index gross of withholding taxes. The portfolios are invested in global green bonds.

Since inception to date, the Global Green Bond Composite consists only of Mondrian seed capital, which is non fee paying and has no external investors. The portfolio accounting is performed in conjunction with independent third parties. To receive a complete list and description of composites and/or a presentation that adheres to the GIPS standards, contact Mondrian Investment Partners Limited +44 (0)207 477 7000.

This overview contains supplemental information which complements the Mondrian Global Green Bond Composite GIPS compliant presentation. Additional information is available upon request.

Calculations for yield to maturity, modified duration, average maturity, average quality and country allocations are based on generally accepted industry standards. All characteristics are based on a representative account and derived by first calculating the characteristics for each security, and then calculating the weighted-average of these values. The details of exact calculations can be provided upon request.

Past performance is not indicative of future results. An investment involves the risk of loss. The investment return and value of investments will fluctuate.

There can be no assurance that the investment objectives of the strategy will be achieved.

All characteristic data provided is produced using Mondrian's accounting system data.

Performance results marked "Gross" do not reflect deduction of investment advisory fees but are net of transaction costs and withholding tax. Investment returns will be reduced accordingly. Performance returns marked "Net" reflect deduction of investment advisory fees and are calculated by deducting a quarterly indicative fee from the quarterly composite return. The indicative fee is defined as being the effective fee rate (or average weighted fee) at the composite's minimum account size. Actual net composite performance would be higher than the indicative net performance shown because some accounts have sliding fee scales and therefore lower effective fee rates.

Views expressed were current as of the date indicated, are subject to change, and may not reflect current views. Views should not be considered a recommendation to buy, hold or sell any security and should not be relied on as research or investment advice.
